Diagrams/Important Safety Information

-  When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons.
-  NEVER operate the unit near a heat source, open flame, flammable/combustible fluids, or sources of liquids.
-  DO NOT operate the unit unless all parts are properly assembled. There are no user-serviceable parts inside the unit.
-  The unit is not intended for outdoor use.

Getting Started

1. Rotate the Purification Dial all the way to the left in order to start in the OFF position.
2. Plug the unit into a wall outlet and rotate the Purification Dial to the right until the unit turns on.

NOTE: This is the minimum setting for purification output.

3. Set the strength of the unit by turning the Purification Dial slowly to the right. This unit is designed to cover up to 325 ft² at its maximum setting.

Cleaning/Maintenance

NOTE: For proper operation, the unit should be cleaned at least once per month.

1. Turn the unit OFF and remove it from the wall outlet.
2. Vacuum out the Fan Air Intake until clean.

NOTE: Blowing Air into the Fan Air Intake in order to clean the unit is not advised. This will only restrict future air flow and pollute the quality of air being emitted by your unit.

3. Dip a cotton swab (Q-Tip) in Isopropyl Alcohol and insert it into the Purification Output Nozzle. Gently rotate the swab and clean the entire area until all visible contamination has been removed. Use a new cotton swab to dry the previously cleaned area.
4. Allow the unit to dry, face down.
5. Plug your unit back into the outlet and turn back on by rotating the dial to the right. Set to your desired level of purification and verify that the operating light is on.

Warranty Information

Your pureAir 50 Air Purifier is warranted to be free from all defects in material and workmanship in normal household use for a period of **1 Year** from date of purchase. The warranty is granted only to the original purchaser and members of his or her immediate household. The warranty is subject to the following provisions. Any damages or malfunctions caused by negligence, abuse, or use not in accordance with the Owner's Manual are not covered by this warranty. Likewise, any defects or damages caused by unauthorized service are not covered. GreenTech Environmental will, at its option, repair or replace a defective Air Purifier that is covered by this warranty. As a matter of warranty policy, GreenTech Environmental will not refund the customer's purchase price. To obtain warranty service you must return the defective Air Purifier along with proof of purchase to the GreenTech Environmental Authorized Warranty Station. All transportation charges on parts, or units, submitted under this Warranty shall be borne by purchaser. Unless this Warranty is expressly renewed or extended by GreenTech Environmental, any repaired or replaced part of unit shall be warranted to the original purchaser only for the length of the unexpired portion of the original warranty.

FURTHER LIMITATIONS AND EXCLUSIONS ARE AS FOLLOWS:

Any warranty that may be implied in connection with your purchase or use of the Air Purifier, including any warranty of merchantability or any warranty for Fitness For A Particular Purpose is limited to the duration of this warranty. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. Your relief for the breach of this warranty is limited to the relief expressly provided above. In no event shall GreenTech Environmental be liable for any consequential or incidental damages you may incur in connection with your purchase or use of the Air Purifier. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
